ADDRESS

OF

Hon. John H. Broughton, Mayor,

AT THE

ORGANIZATION OF THE CITY COUNCILS.

August 8th, 1877.

GENTLEMEN OF THE CITY COUNCILS:

We have to-day, in accordance with the people's votes, assumed the powers and duties conferred by the laws upon the City Councils. We have sworn to exercise those powers and perform those duties according to our best abilities and agreeably to the laws. I have no doubt you mean to do so, and that you will give the necessary time and attention to all matters that may come before you, and strive for the best interests of the city. As for myself, I shall give my best energies to the duties of the important office I hold, and shall confidently expect your co-operation.

I shall hereafter from time to time communicate such information and recommend such measures as the interest of the

city may seem to require. But at present I am not able to—and you will not expect that I should—enter into any details of city affairs. My experience in municipal matters is too slight for me to be able to do so. For all such details I must refer you to the printed city reports, and, if you need explanations, to the heads of the various departments.

It is very gratifying to me, that in entering upon our duties, we are sustained by so large a portion of our fellow citizens. This expression of confidence should lead us to a careful inquiry whether in any department a better system can be introduced, whether the rights of the people can be better guarded, or their interests in any way promoted. This is our duty, and I hope we may succeed in satisfying all reasonable demands for reform.

The necessary expenses of our city are very large, and must continue so. Good schools, open for all, are expensive, but they are indispensable; good streets, well graded, drained and lighted, with good sidewalks, make a town comfortable for residents and attractive to strangers: the fire department with all its appurtenances must be kept up to a high state of efficiency; an active police must be maintained by night and by day; the poor must be cared for, humanely, sometimes liberally, at all times with a consideration for the recipients of the public bounty as well as for the public purse.

I have alluded to only a part of the necessary expenditures; and I am aware that to a large extent these are beyond your control. You, gentlemen, are expected to furnish the money and pay the bills; but the bills in many cases are contracted by others; the school committee, the board of engineers, the overseers of the poor, the health committee, each control the expenses of their several departments. And yet it is expected that you will, in all ways open to you, exercise a vigilant supervision over all city expenses.

It is very desirable—I cannot impress it upon you too strongly, that economy should be practiced everywhere and in every way; not a shiftless meanness which avoids the incurring of necessary expenses, which buys poor material or employs incompetent labor, but a true and liberal economy which prudently provides for present wants and foresees and is prepared for the exigencies of the future.

And I do not speak in a fault-finding mood, where I say

that the cost of the police and night-watch was larger in 1875 than it was in 1873, though my predecessor two years ago suggested that it was worthy of consideration whether a large reduction might not be made in this expense consistently with the safety and convenience of the public. You, gentlemen, and the public may decide, whether this increased cost has brought increased efficiency to the police force—whether our streets are more quiet, or our property safer, or the laws better enforced—whether more energetic or careful or prudent men have been secured; if such has been the case perhaps the larger cost was necessary and justifiable.

Neither am I disposed to censure an increased expenditure in the fire department in 1875 over that of 1873, if the expenses have been prompted and regulated by a proper care for the interests of the city. Perhaps I can make no more complimentary allusion to the force and machinery of this department than to say that our predecessors have done their best to keep them in as good condition as they found them. During the present summer a new steamer has been purchased; and a reservoir is now being constructed at Puddle Dock, which it is hoped will be available at all tides.

During the past two years a part of the city farm has been laid out and graded, and the lots offered for sale. If these lots and a larger portion of the farm can be sold at proper prices I have no doubt it would be an advantage to the wealth and growth of the city.

I am informed that a proposition will be brought before the City Councils asking for aid in paying the debt of the Portsmouth & Dover Railroad. The city holds 3000 shares of the capital stock of that road, which were paid for by the issue of \$300,000 city bonds. The road is leased to the Eastern Railroad, and dividends have been paid upon the shares sufficient to pay the interest on the bonds up to this date. It will be your duty, gentlemen, to consider and decide whether the public interest requires the incurring of an additional liability in aid of the road. Whatever may be your decision in this case, I hope and trust that the city will not again be involved in any private enterprise. I am strongly opposed to the use of the public money or the public credit for the purpose of building railroads. I do not believe it legal or prudent.

I wish to call your attention to the condition of the mill ponds. Both of them have become serious annoyances to the inhabitants, and will soon be intolerable nuisances. It is necessary that something should be done speedily to purify those waters, and to prevent the accumulation of filth in them. It is desirable that you give the subject your earnest attention.

The amendment to the city charter, passed at the late session of the legislature, contains some provisions to which it is proper that I should allude at this time, inasmuch as the extraordinary vote at the recent election seems to give the strongest approval of them. First, is the provision for conducting all our elections by daylight, or at least to bring them to a close at an early hour in the evening. This is no new idea, here or elsewhere. A law requiring the polls in this city to be closed at a fixed time was passed in 1873, and was in force I think at one election. It was repealed in 1874, and the result was a return to the noisy and turbulent night sessions in some of the wards; these night sessions are as unnecessary as they are disgraceful; they are unnecessary because all citizens who desire to vote can find ample time and opportunity in the nine hours of daylight during which the polls are required to be kept open; they are disgraceful because they are liable to lead to and promote public disorder, excite evil passions, and encourage fraud and dishonesty. I hope and believe that this wise and salutary provision of law may not again be disturbed.

Another provision of the amended charter, is that requiring all the check lists to be prepared by a board of inspectors. This board, members of which are elected by each ward, must necessarily be composed of men of both parties. No mere partisan board can hereafter prepare a list of voters, and dishonest and double voting will be mainly guarded against. This mode of preparing the check lists has been in use in some of the cities of this and other States; it is highly spoken of, and demands a fair and honest trial.

Gentlemen, I shall take the earliest opportunity to lay before you a statement of the financial condition of the city, and of the appropriations credited to the various accounts. I shall be ready at all times to join with you in any measure tending to promote the happiness and prosperity of our beloved city.

My desire is that our intercourse may be agreeable, our deliberations harmonious, and their results satisfactory to our selves and our constituents.

CITY ORGANIZATION.

1876-77.

MAYOR, JOHN H. BROUGHTON.

ALDERMEN.

Ward 1—Orville D. Bryant,
Samuel A. Spinney,
Alfred C. Hoyt,

Ward 3—Edward D. Coffin.

Ward 2—Matthew T. Boston,
Charles H. Sides,
Henry A. Yeaton

Ward 4—Daniel Marcy,

Inspector of Petroleum and its products—Hiram C. Locke.

Sealer of Weights and Measures—William J. Doyle.

Pound Keeper—Robert Shillaber.

Keeper of Powder Magazine—James R. Yeaton.

Harbor Master—Floron Barri.

Port Wardens—Edward E. Vaughan, Clarence O. Walker, Floron Barri.

Weigher—Clarence O. Walker.

Fence Viewer—George E. Hodgdon.

ANNUAL REPORT OF THE
CITY SOLICITOR,
FOR THE YEAR 1876.

TO THE CITY COUNCILS OF THE CITY OF PORTSMOUTH :

As required by the Ordinance, I submit a report of all unfinished business in my department.

Since I assumed the duties of Solicitor, September fifteenth last, there have been issued from my office, one hundred and ninety-five warrants for the arrest of offenders against the laws of the State, and the City Ordinances.

The suit against the City in favor of Mr. Horace W. Waldron has been adjusted by the payment of a sum somewhat smaller than that found by the referee as damages; together with the taxable cost; from the latter amount, the fees of the referee are to be deducted, I having collected that amount from the County, and paid it in to the City Treasury. It is for the City Councils to give direction whether any steps shall be taken to recover from the party by whose fault the accident to Mrs. Waldron occurred, to reimburse the City, for the damages recovered in this suit.

The unfinished business, and suits now pending against the City are as follows :

Two suits against the City, as trustee of Frederick W. Rogers : These I intend shall be disposed of at the adjourned term of the Court, one against the City vs. trustee of Ernest H. Rand : Eight of the former Police officers of the City, have brought suits for their witness fees in criminal cases before the Police Court. The late City Government passed an ordinance which provided that salaries paid to the Marshal and his assistants should be in full for their services, and

that fees for service of warrants, &c., should be paid by them into the City Treasury, but these parties contend that they entered upon their offices, before the passage of this ordinance, and consequently are not bound by its provisions.

These actions are referred to a competent legal gentleman as Auditor, and the amount claimed to be due to each, being ascertained, the question as to their right of recovery will be determined by the full bench.

There is also an appeal of the Misses Peirce from the award of damages, occasioned by the widening of Richard's Avenue, entered at the term of the Supreme Court now in session.

Another action which will be returnable at the next term is brought by Mr. Charles H. Sides, against the City, to recover damages for an injury alleged to have been received by his minor child, on the twenty second day of August last, by the insufficient and deficient planking of Elm Street, where the track of the Eastern Railway crosses the street at grade.

As I regard this as a case wherein, if there can be anything recovered, the city should be reimbursed by the Railway Company, as the defect, if such existed, was wholly due to the manner in which the Railway has laid the planking at the crossing referred to, I have had a proper notice served upon the President of the Eastern Railroad Co., apprising him of this action, the nature of the claim and that the City will look to the Railroad Co., for the payment of all damages which may be recovered therein; and inviting that Corporation to defend the suit if they shall so elect.

In conclusion, I desire to assure the Councils that the Marshal of the City, and his assistants have promptly and faithfully discharged all their duties, so far as my official connections have permitted me to be informed.

Respectfully submitted,

WILLIAM H. HACKETT, City Solicitor.

ANNUAL REPORT OF THE
CITY MARSHAL,
FOR THE YEAR 1876.

PORTSMOUTH, N. H. DEC. 31. 1876.

TO THE HON. BOARD OF MAYOR AND ALDERMEN:

Gentlemen,—I would respectfully make the following report of the number of persons arrested and lodged, and the cause of the arrests during the year 1876:

Drunks, 334; tramps, 84; assault, 57; brawl and tumult, 23; larceny, 24; vagrancy, 21; deserters, 12; truants, 5; disorderly conduct, 13; disorderly houses, 7; insults, 3; fighting, 3; disturbing religious meeting, 2; begging, 2; suspicion, 3; playing ball, 3; threatening life, 2; cruelty to animals, 3; sabbath breaking, 12; breaking the peace, 4; malicious mischief, 1; selling liquor, 2; open bar after 11 o'clock, 2; breaking glass, 2; arson, 1; assault with knife, 1; assault and battery, 1; bastardy, 1; practicing medicine without authority, 1; highway robbery, 1; obstructing sidewalk, 1; fast driving, 1; peddling without license, 1; horse thief, 1; debt, 1; gambling 1. Total 642.

There has been 668 persons lodged during the year.

And there has been collected in payment of fines and costs during the year, \$598.00.

JOHN DAME, City Marshal.

ANNUAL REPORT OF THE **STREET COMMISSIONER,**

For the Construction of Sidewalks,
FOR THE YEAR 1876.

Portsmouth, N. H. Dec. 30, 1876.

TO THE HON. MAYOR AND ALDERMEN:

Gentlemen.—The sum expended by me on account of laying and repairing sidewalks from Aug. 11, 1876, to date amounts to; Two hundred forty-four dollars and ninety-five cents (244.95) as follows:

Bricks,	162 02
Edgestones, &c.,	34 80
Sand & teaming,	13 50
Labor,	34 63

\$244 95

Bricks on hand, Aug. 11, 1876,	4 000
Bricks bought,	15 576

19 576

Bricks on hand, Dec. 30, 1876,	17 576
--------------------------------	--------

I have collected and paid to the City Treasurer, the sum of \$109.50.

On account of:

Cash from M. Eldredge, (sidewalk)	\$44 90
“ C. H. Rollins, “	6 57
“ Sand, gravel & teaming,	48 03
“ Stone,	4 00
“ Manure,	\$6 00

\$109 50

Respectfully submitted,
ROBERT C. SIDES, Street Commissioner.

ANNUAL REPORT OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

FOR THE YEAR 1876.

TO THE HONORABLE MAYOR AND ALDERMEN:

Gentlemen,—In compliance with the ordinance defining the duties of Chief Engineer, I herewith present the annual report of the condition of the Fire Department: a list of fires that have occurred during the past year, with a statement of the amount of loss and the amount of insurance on the property destroyed, so far as ascertained; the amount of property belonging to the City under my charge; a list of the members, with their ages and residences; and a list of reservoirs, wells and hydrants with their location and condition.

MEMBERSHIP.

The membership of the Department has been increased since the last report, in compliance with an Ordinance passed Sept. 21st. It now numbers 122 men, divided as follows:—Chief Engineer and four Assistant Engineers, Clerk of Fire Department, Two Steamer companies, each consisting of 23 men, and one Steamer company of 22 men. Two Extinguisher companies, ten men each. One Hook & Ladder company numbering 20 men. One Hose company 3 men, and Supply Wagon with 3 men. Two men for the Steamer in reserve.

APPARATUS.

The apparatus of the Department consists of three Steam fire engines, with hose carriages attached, and one Steamer in reserve. Two Extinguishers, One Hook & Ladder trucks. One Supply Wagon, and one Horse Hose Carriage.

Steamer No. 1 was built by Messrs. Campbell & Whittier of Roxbury, Mass. Put into service in 1865. No. 2 was built by Portland Co. Put into service in 1864. No. 3 by the Amoskeag Co. Put into service in 1870. No. 4 was built by B. S. Nichols & Co., of Bur-

Hington, Vt. Put into service in 1876. These Engines are in good order with the exception of No. 2, which needs a new boiler. It would cost about one thousand (1000) dollars. When this is done it will be a reliable engine. The Extinguishers, Hook & Ladder trucks and their apparatus are in good order.

HOSE.

There are 5500 feet of leather, and 1050 feet of linen hose in the Department, 2000 feet of the leather hose is nearly new, but the remainder is in a poor condition, and the linen hose is worthless.

HOUSES.

The Engine Houses are in good condition. A brick floor with granite tracks has been laid in the houses of Nos. 3 & 4, and a spacious hose tower has been built in the rear of this building, which gives ample accommodation for washing, drying, and storing hose.

WATER SUPPLY.

The reservoirs number 15. Two serviceable salt water reservoirs have been built at Puddle Dock the past year. I would renew the request which has been made before---that the inlets of the reservoirs be enlarged.

I would recommend that a pipe be laid to lead the water from the Hanover Street reservoir to the corner of Vaughan and Congress streets, which would give us an ample supply of water in case of fire in that vicinity: also that a six inch hydrant be put into the aqueduct log near the corner of Fleet and State Streets, and one into the aqueduct log near the Methodist Church. A salt water reservoir on Bennett street near the Distillery is much needed.

FIRES AND ALARMS.

The fires and alarms from Jan. 1, to December 31, number 17. The value of the property destroyed and the amount of insurance on the same is shown elsewhere.

EXPENDITURES.

The amount of money expended by direction of the Board of Engineers is \$8423.07; of which \$4260.00 was for salaries.

In conclusion, I would express my thanks to His Honor the Mayor and members of the City Councils, for their earnest efforts to promote the efficiency of the Department; to the Board of Engineers, and the officers and members of the several companies, for the prompt and faithful manner in which they have discharged their duties.

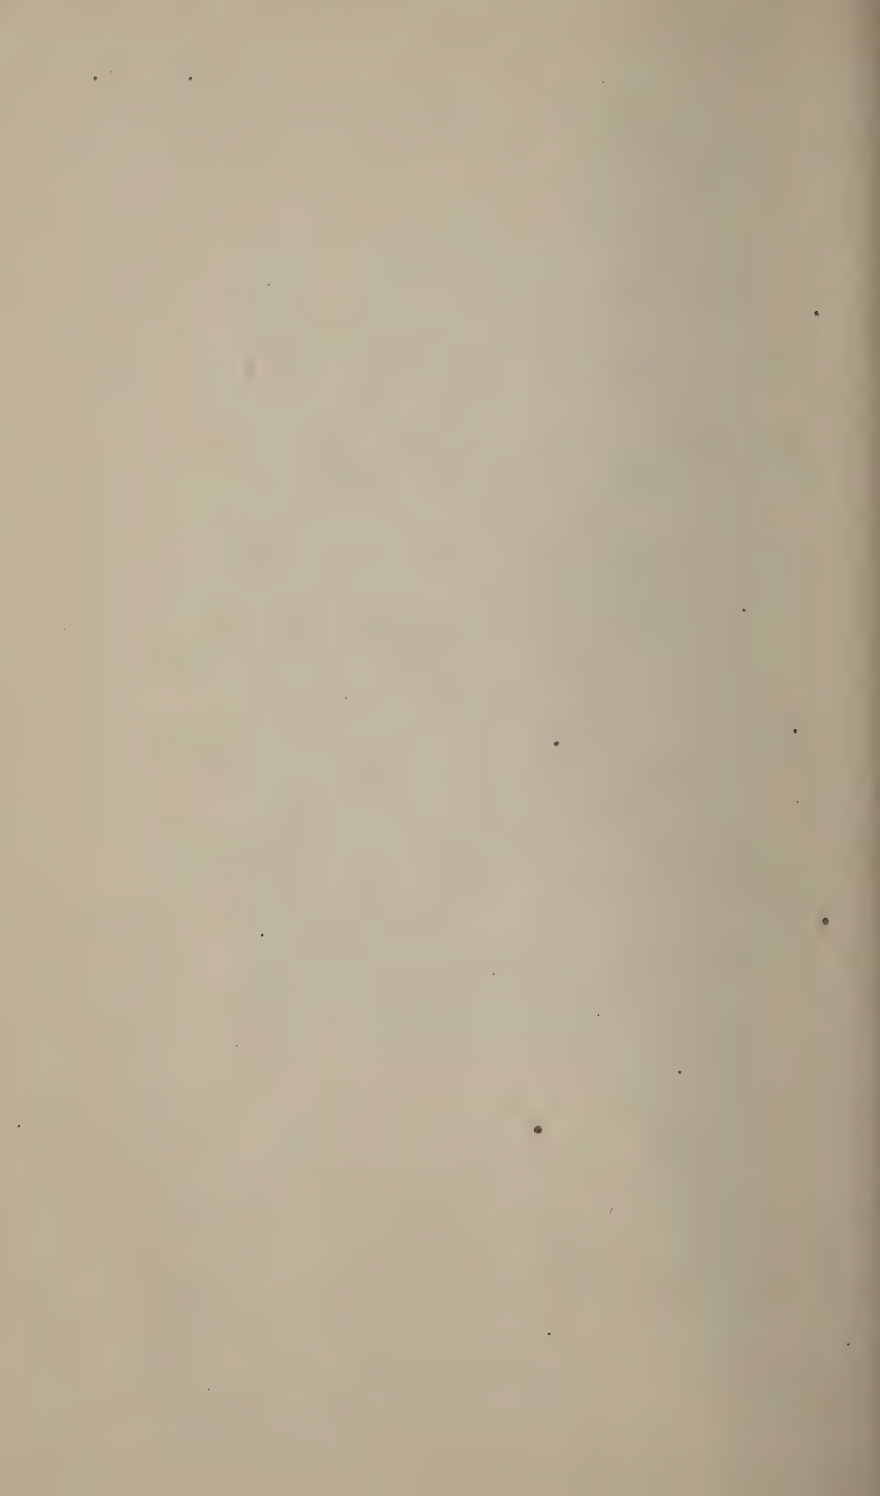

Respectfully submitted,

STEPHEN L. MARSTON, Chief Engineer.

Portsmouth, N. H. Dec. 31, 1876.
